IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: Edward Robert Cochran, Jr., Alton E. Windsor, Jr.

For: Tank Fluid Parameter Monitoring Device and Method

The specification of which was filed on December 5, 2003, as Application No. 10/729,670.

**STATEMENT OF FACTS IN SUPPORT OF FILING
ON BEHALF OF NONSIGNING INVENTOR (37 C.F.R. SECTION 1.47)**

This statement is made as to the exact facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the nonsigning inventor for the above identified patent application before deposit thereof in the Patent and Trademark Office.

Because signing on behalf of the nonsigning inventor is by a person or entity showing a sufficient proprietary interest, this statement also recites facts as to why this action was necessary to preserve the rights of the parties or to prevent irreparable damage.

This statement is being made by the available person having first-hand knowledge of the facts recited therein.

IDENTIFICATION OF PERSON MAKING THIS STATEMENT OF FACTS

Edward R. Cochran, Jr.
556 Heatherstone Court
Ridgeland, MS 39158

**EFFORTS DURING CONVENTION YEAR TO PREPARE APPLICATION AND
OBTAIN INVENTOR'S SIGNATURE**

On December 3, 2003, I spoke with Mr. Windsor's family to obtain his contact information in the alcohol treatment center. I called Mr. Windsor at the given phone number and requested a return call. I was told that Mr. Windsor did not wish to speak with me and he could not conduct business.

LAST KNOWN ADDRESS OF THE NONSIGNING INVENTOR

Alton E. Windsor, Jr.
1904 Bellewood Road
Jackson, MS 39211

DETAILS OF EFFORTS TO REACH NONSIGNING INVENTOR

Mr. Cochran attempted to communicate with Mr. Windsor when he was no longer in confinement. During his treatment he was isolated from all outside contact. Once he was released from treatment, he was placed in a half way house and outside contact was restricted. He would not return any phone calls during his stay at this facility. He still will not return phone calls to Mr. Cochran.

DETAILS OF REFUSAL OF NONSIGNING INVENTOR TO SIGN APPLICATION PAPERS

Mr. Cochran attempted to obtain Mr. Windsor's signature on the declaration at the time of filing the patent application. Mr. Cochran was unable to speak to Mr. Windsor to discuss the patent application with him. The application was filed without the signed declaration in hopes that Mr. Windsor's health would improve enough to sign when missing parts were filed. His health did not improve and Mr. Windsor still refuses to communicate with Mr. Cochran.

PROOF OF NEED TO PREVENT IRREPARABLE DAMAGE OR PRESERVE THE RIGHTS OF THE PARTIES

Invention rights must be preserved since commercialization of the invention is currently being pursued by Mr. Cochran on behalf of his company Accu-Track Technologies, Inc. Mr. Windsor was a partner in this company prior to his health problems. Mr. Cochran has purchased Mr. Windsor's part of the company since Mr. Windsor is unable to participate in the running of the company.
